

AUTOMATIC TRICKLE BATTERY CHARGER

MODEL: ABC-3A

AUTOMATIC TRICKLE BATTERY CHARGER ABC-3A

Automatic trickle type battery charger monitors the battery and delivers the current as much as the battery required upto its maximum rate of charging, once the battery is fully charged the charger will provide a low trickle charge to prevent the battery from over charging, short circuit, reverse connection and other factors. The trickle type battery charger is designed to provide smooth charging to the battery with constant voltage and current.

FEATURES & SPECIFICATIONS

- ◆ Extends battery life upto 30%.
- ◆ LED indications for power, trickle and charging.
- ◆ High reliability can work in extremam temperatures..
- ◆ Weight 2.220 Kg.
- ◆ Dimensions 134 x 90 x 104 mm.
- ◆ Humidity 0-90 (non condencing).
- ◆ Power supply 180-260vac ~ 50/60Hz.
- ◆ Protection for short circuit, reverse polarity and over charging.
