

AUTOMATIC BATTERY CHARGER

MODEL: ABC-10A

AUTOMATIC BATTERY CHARGER

ABC-10A

The SONET Automatic Battery Charger 10A is a reliable and efficient charging solution designed for industrial and switchgear applications. It features a selectable 12V/24V DC output, adjustable output voltage for precise battery charging, and automatic charging control to maximize battery life. Built with a durable metal enclosure, it delivers stable performance and dependable operation for standby power systems, control panels, generators, and automation equipment.

FEATURES

- ◆ Selectable 12V / 24V DC output
- ◆ Adjustable output voltage
- ◆ Reliable, safe, and long service life
- ◆ Rugged industrial metal enclosure
- ◆ Digital output voltage display

SPECIFICATIONS

- | | |
|-------------------|-----------------------|
| ◆ Model | ABC-10A |
| ◆ Maximum amperes | 10 Amperes |
| ◆ Input voltage | 220V-AC |
| ◆ Output voltage | 12-24V-DC |
| ◆ Power supply | 180-260vac ~ 50/60Hz |
| ◆ Panel mounted | Yes |
| ◆ Temperature | 30 ~ 70°C |
| ◆ Humidity | 0-90 (Non condensing) |
| ◆ Weight | 460g |
